

Proton-Emitting Nuclei: from Oak Ridge to Warsaw*

W. Nazarewicz^{1,2}

¹*Facility for Rare Isotope Beams, Michigan State University,
East Lansing, Michigan 48824, USA and*

²*Institute of Theoretical Physics, Faculty of Physics,
University of Warsaw, 02-093 Warsaw, Poland*

Since the first PROCON conference in 1999, the field has made dramatic progress in detection, characterization, and interpretation of proton-emitting nuclear states. In this short overview, I will discuss highlights and frontiers in the field.
